Introducing the Jacobsen Freestanding Bathtub -A Sculptural Masterpiece for the Modern Sanctuary

2025-04-28

Imagine sinking into a bath so perfectly designed, it feels like an extension of your body—a cocoon of comfort, a sculptural centerpiece, and a personal retreat wrapped into one. Meet the Jacobsen Freestanding Bathtub Collection, WETSTYLE's boldest fusion of artistry and relaxation. Inspired by Arne Jacobsen's legendary Egg Chair, this collection is a testament to iconic design, modern craftsmanship, and the pursuit of the perfect soak.

The Jacobsen Collection isn't just a bathtub—it's a statement piece that transforms any bathroom into a spa-like haven. Featuring soft, organic curves and an enveloping silhouette, this tub invites you to experience a truly immersive soak like never before. Whether placed in a minimalist retreat, a modern loft, or a nature-inspired spa, the Jacobsen's fluid, sculptural form exudes sophistication and warmth.

Designed for Indulgence -Two Unique Models

Crafted from WETSTYLE's signature WETMAR BiO™, an eco-friendly, velvety solid surface, the Jacobsen tub is both durable and exquisitely smooth to the touch. The collection debuts with two distinct models, designed to cater to different bathing preferences:

BJC01

[Download image](#)

- BJC01-The ultimate solo sanctuary, with a single reclined position that cradles you in a cocoon-like embrace, perfect for deep relaxation and mindfulness.

BJC01

[Download image](#)

- BJC02-A spacious, flared silhouette, designed for luxurious two-person bathing, making it an intimate retreat for couples or a generous escape for those who love extra room to stretch out.

Both models are meticulously crafted with flared, asymmetrical edges that echo the curves of nature, creating an organic form that is as visually stunning as it is inviting.

A great bathtub isn't just a fixture—it's an experience. The Jacobsen Collection is designed for those who seek balance between form and function, beauty and comfort, tradition and innovation. Unlike traditional tubs, its solid WETMAR BiO™ construction ensures warmth, durability, and a superior soaking depth, offering a full-body immersion like no other.

"More than ever, people are turning their bathrooms into private sanctuaries—places of peace, retreat, and renewal. The Jacobsen tub delivers that, offering a sculptural beauty that draws you in and a soaking experience that is deeply restorative. This is the perfect bathtub for anyone who values both design and well-being."

Mark Wolinsky, President of WETSTYLE.

Jacobsen Collection Specifications:

- BJC01-66" x 32" x 28" high (13" low) | One headrest
- BJC02-67" x 32" x 28" | Two headrests

Available in Stone Grey, Matte White, and custom color options, the Jacobsen Freestanding Bathtub is an instant icon, seamlessly integrating into both contemporary and timeless interiors.

About WETSTYLE:

WETSTYLE is a Canadian luxury bath manufacturer dedicated to sustainability, craftsmanship, and innovative design. With a passion for handcrafted, eco-friendly bath furnishings, WETSTYLE continues to redefine the art of relaxation.
